Typical values — lot-specific Certificate of Analysis on request.

THE SCIENCE

Dehydration removes water while keeping the onion's sulfur compounds and quercetin, so flavour concentrates and stays stable.

WHY INDIAN

The Mahuva belt in Saurashtra is one of the world's largest onion-dehydration clusters, with white and red onion varieties grown for drying.

IN YOUR FORMULATION

Shelf life Up to 24 months in cool, dry, hygienic storage. FCL and LCL. Incoterms: FOB / CIF.

Compliance notes by market

United States · usually FOB

Ethylene-oxide is not permitted as a treatment on our lots; ETO-free declarations available.

Gulf Cooperation Council · usually CIF

GSO labelling: Arabic labelling requirements apply at retail; bulk industrial packs carry English labels with lot and origin.

European Union · usually FOB

Ethylene-oxide history for Indian origin means buyers ask for batch-level ETO-free certificates; available on request.

Southeast Asia · usually CIF

Import permits and product registration vary by country; your importer applies, we supply matching specs and certificates.

- Ethylene oxide is never used as a treatment on our lots. Batch-level ETO-free declarations are available and are standard for EU shipments of Indian origin.

HS classification is indicative; confirm with your customs broker for the destination tariff line.
